Product Description

Definitive Technology's new ProCinema 600 System is their new entry-level 6-piece home theater system. Its surprisingly affordable price belies its remarkable sophistication. The ProCinema 600 System incorporates the same new technologies and advancements, including BDSS drivers, pure aluminum dome tweeters, planar medite passive radiators and a 250-watt SuperCube technology powered subwoofer. Sonically, the new ProCinema 600 System is a revelation in terms of achieving incredible sound at an affordable price. Their imaging is absolutely boxless, spacious and three-dimensional while delivering pinpoint specificity and localization when called for. They are velvety smooth with a you-are-there presence which is unique at any price and unheard of in this price range. The 600 system is dynamic but capable of great subtlety so it excels equally with music or movies.

From the Manufacturer

Enjoy a superior home theater audio performance without investing in expensive and space-consuming loudspeakers with the six-piece Definitive Technology ProCinema 600 system. It includes four ProMonitor 600 satellite speakers, a ProCenter 600 center channel speaker, and a 250-watt ProSub 600 subwoofer that's powered by Definitive's SuperCube technology. The ProCinema 600 is a compact, entry-level home theater system with a surprisingly affordable price that belies a remarkable sophistication.

ProCinema 600--An Affordable Miracle

The ProCinema 600 System is Definitive's most affordable 6-piece home theater system, incorporating 4 identical easy to place satellite speakers for front and surround channels, a matching center channel loudspeaker, and a robust powered subwoofer. But don't let its small size and affordable price fool you--the ProCinema is a remarkably sophisticated system with huge sound. The system's components incorporate many of the same technologies as Definitive's top-of-the-line models including Balanced Double Surround System (BDSS) drivers, pure aluminum dome tweeters, planar pressure-coupled mid/bass radiators, and a 250-watt powered subwoofer for home theater sound quality that will astound your friends and family when they hear your system for the first time. The ProCinema 600 is available in black or white to match any home theater design.

The Secret to A Big Sound

Competing satellite speakers of this size usually have weak lower-midrange response; that part of the audio range that contains the "warmth" and "body" of voices and musical instruments. The ProCinema satellites avoid this critical problem in the key vocal range by pressure-coupling an exclusive BDSS technology driver to an equal-sized mid/bass radiator cleverly placed on the top of the satellite. This technique doubles the lower-midrange radiating

Mid/bass radiator on top of the satellite delivers stronger lower-midrange response for more natural sound

Satellites can be shelf-mounted with their unique tri-lobed base

subwoofer is 27% greater than a conventional 10-inch woofer but with better speed, pitch definition, and control.

Easy to Place, Easy to Use

Small enough to disappear in a room but beautiful when in plain view, the 600's satellites can be shelf-mounted with their unique tri-lobed base, wall-mounted using the built-in keyhole mount, or using the optional ProMount 80 pivot mount or stand with optional floor stands (sold separately). The center channel speaker has an adjustable foot for shelf mounting or can be wall-mounted using two optional ProMount 80 articulating brackets.

The sub volume control is placed on the side of the subwoofer's enclosure to make adjusting the subwoofer's output as easy as possible.

The Sound

Sonically, the ProCinema 600 System is a revelation in terms of achieving incredible sound at an affordable price. The imaging is absolutely boxless, spacious, and three dimensional while delivering pinpoint specificity and localization when called for. They are velvety-smooth with you-are-there presence which is hard to find at any price and unheard of in this price range. The ProCinema 600 system is dynamic but capable of great subtlety, so it excels equally with music or movies.

Technical Specifications

ProMonitor 600 satellite speakers

- Dimensions: 4 by 7 by 4.25 inches (W x H x D)
- Frequency response: 65 Hz to 30 kHz
- Efficiency: 88 dB
- Driver complement: One 3.25-inch bass/midrange driver coupled to one 3.25-inch pressure-driven planar low-frequency radiator; One 1-inch pure aluminum dome tweeter
- Recommended amplification: 10 to 150 watts
- Magnetically shielded: Yes
- Finish: Gloss black

ProCenter 600 center channel speaker

- Dimensions: 10.5 by 4 by 4.25 inches (W x H x D)
- Frequency response: 55 Hz to 30 kHz
- Efficiency: 89 dB
- Driver complement: Two 3.25-inch bass/midrange drivers coupled to two 3.25-inch pressure-driven planar low-frequency radiators; One 1-inch pure aluminum dome tweeter
- Recommended amplification: 10 to 175 watts
- Magnetically shielded: Yes
- Finish: Gloss black

ProSub 600 subwoofer

- Dimensions: 10.38 by 13 by 13 inches (W x H x D)
- Frequency response: 22 Hz to 150 Hz
- Driver: One 8-inch woofer with polymer cone; one 8-inch infrasonic radiator
- Built-in amplifier: 250 watts RMS
- Speaker-level high-pass filter: 6 dB/octave (100 Hz)
- High-level low-pass filter: 24 dB/octave continuously variable (40 Hz to 150 Hz)
- Finish: Black

area of the speaker without increasing the size of the enclosure. You'll enjoy the kind of rich, warm and life-like sound quality that you thought was only possible with big, hard to place speakers.

Center Channel Muscle

As much as 75% of a movie's soundtrack is played by the center channel loudspeaker, making it arguably the most important speaker in a home theater system. It's the key to getting intelligible dialogue and true-to-life sound effects, so extra attention was lavished on the ProCinema 600's center speaker. It features two of the same BDSS drivers as the satellites along with two mid/bass radiators on the sides of the enclosure, allowing it to play loud and clear with high tonal accuracy.

Big Beefy Bass

The Low Frequency Effects (LFE) of a movie's soundtrack bring excitement, realism and just plain fun to action, adventure, and sci-fi movies. Worry not, Definitive has bass down pat. The ProCinema 600's subwoofer features a 250-watt amplifier driving a high-excursion 8-inch woofer that is pressure-coupled to an 8-inch Low Bass radiator on the bottom of the enclosure. The net radiating area of the 600's

The ProCenter 600 features two BDSS drivers, allowing it to play loud and clear

Adjusting the ProSub 600 output is easy with side-mounted volume control

## Customer questions & answers

Have a question? Search for answers

- 4 votes

**Question:** [How many banana plug connections do you need?](#)

**Answer:** The previous answers are not all correct. Keep in mind you need 2 separate banana plugs for each side of each cable -- the amp/receiver side and the speaker side. So that's 4 per speaker/cable. The answer will vary depending on how you install the sub-woofer. They provide two methods. The simpler method is to use ... [see more](#)

 Outbreak

Subwoofer went out, Def-Tec fixed it!

July 22, 2017  
Color: Black **Verified Purchase**  
I absolutely LOVE these speakers! The sound is great and is MUCH better than our old Bose system. We paired these speakers with a Onyko receiver! Be advised - if you're mounting these on a wall, the center speaker requires two mounts.

OLD UPDATE - The subwoofer just went out... I called DefTech and they're sending me a new board for the subwoofer. I'll update this review once the board is received and installed.

NEW UPDATE - The new board arrived, I installed it in about 5 minutes and everything is back to normal. Thanks Def-Tec!

 GH

Great Sound at a Reasonable Cost!!

April 13, 2018  
Color: White **Verified Purchase**  
System completely installed and enjoying Jimmy Buffett right now. Sound is great with music, movies and even TV. Wife and I are really enjoying this system. Mounting looks so great with the Definitive Tech mounts you cannot even see wires. Several neighbors have said are they Blue Tooth or Wi Fi. The 600 system is perfect for a living area!!

Great sound in a small package

October 5, 2017  
Color: Black **Verified Purchase**  
Ones of the best sounding satellite speakers that I've ever heard. I was debating between these and the energy classic. So glad I went with these. The satellite speakers are heavier than they look. Has a good feel and quality to it. Def Tech has been in the business for years so they know what they are doing.

 Amazon Customer

I have this in my media room and it certainly awes people by its awesome sound quality

November 23, 2016

Color: Black Verified Purchase

Bang for the buck surround sound. The subwoofer quit working. Called definitive and they sent me prosub 800 rather quickly. I have this in my media room and it certainly awes people by its awesome sound quality..

 Jason W.

Great sound for the price

January 6, 2019

Color: Black Verified Purchase

Speakers sound great for the price. The install was easy. I wish they sounded better when the volume was turned up higher and wish there was more bass. However for the price I am very happy with the sound quality. Would buy again unless I had a bigger budget.

Great system

December 27, 2018

Color: Black Verified Purchase

I paired this with 2 Def Tech 800 speakers ro make a 7.1 surround sound system. It sounds great with my Denon receiver! Glad I didn't get the Onkyo's which were WAY bigger.

 R King

Great sound and value.

January 20, 2019

Color: Black Verified Purchase

I'm very happy with these speakers they work very well for our surround sound system. They are a great size with a rich sound a lot of boom from the sub woofer without being the size of coffee table like most are.

 Blargh

You'll love these speakers

July 1, 2015

Color: Black Verified Purchase

These speakers are fantastic. The left, right and surround speakers are about the size of your desktop PC speakers but they have the sound of your living room floor standing speakers. They don't sound small at all. Well worth the money.

29 July 2017  
Still going strong!
